MEMORANDUM FOR: AFIGO-S
Headquarters USAF

ATTENTION : Colonel Leo P. Geary

SUBJECT : Vehicle Requirements - Detachment H

1. Attached is a list depicting vehicle assets authorized and on hand at Detachment H. This list has been carefully reviewed by the Detachment Commander and annotated by him in the right hand column to indicate new requirements, changes and/or deletions and is concurred in by this Headquarters.

2. Request action be taken to replace the three 1959 pick-up trucks, items 14, 20 and 21 with three 1962 carryalls S/N 2320-889-1630 and one 1959 pick-up truck, item 28, with a 1962 pick-up truck S/N 2320-542-2527. The Ford Econoline, 6 cylinder type vehicles, are desired to minimize the vehicle maintenance workload and provide vehicles compatible with those now on hand. Vehicles are required in place prior to 1 April 1964.

3. The station wagon, item 11, has been programmed for replacement in FY-64 but has not arrived at Detachment H to this date. This vehicle should also be 6 cylinder type for the same reasons indicated in paragraph 2 above. However, if this vehicle is already enroute and is an 8 cylinder type, it will be acceptable. If not enroute, please insure that vehicle is 6 cylinder type. If 6 cylinder type is not available, please advise this Headquarters prior to taking action to substitute 8 cylinder type vehicle.

4. This Headquarters will replace the 1957 metro in March 64 with a pilot transport van presently under procurement. No action required by your activity on this vehicle.
